Value Plan**

You could be paying more than you have to for medication

Did you know that prescription drug prices can vary by more than 20% for the same medication between pharmacies?

Your drug plan with Canada Life includes our Pharmacy Network Value Plan. Now you can save money when you fill your prescriptions at a Costco Wholesale®. You don't need a Costco membership to fill prescriptions at a Costco Pharmacy. Some of the benefits you can enjoy are:

- Prescription drugs with competitive pricing, thanks to lower total costs
- Consultation services from Costco pharmacists to help you understand how your prescribed medications work
- More savings by filling your prescriptions at Costco, although you have the flexibility to get them from any pharmacy

Deductibles will apply when you fill your prescriptions at pharmacies other than a Costco Pharmacy.

Home delivery

Costco Pharmacy Home Delivery allows you to order prescription medications for ongoing medical conditions. This may include asthma, depression, diabetes, high blood pressure and high cholesterol.

You can order new prescriptions and refills for medications at [costcopharmacy.ca](https://www.costcopharmacy.ca). Delivery is free by standard shipping.

Delivery is available in all of Canada, except in the provinces of Quebec and P.E.I. and the territories.
